MEMORANDUM FOR: Mr. Warner

STAT

25X1

25X1

2. Senator Hickenlooper, when queried by the Director as to possible future action on the consular convention, said he had no idea what Senator Mansfield had in mind. He said there were several objections entered to the convention and usually these would not be overridden without warning. On the way back I brought this up with the Director and suggested maybe we should get together with Mansfield and talk about the consular convention and also about the joint committee problem. The Director thought this was a good idea and so we might try to see what chance there is to get to Mansfield toward the end of this week or early next week.
